Our Community. Our Memorial.

Health Care for Craig and Moffat County

The Memorial Hospital at Craig is located in Craig, Colorado, and provides health care to the communities of Moffat County. Our new hospital facility, completed in the fall of 2009, is a reflection of our community's desire to have excellent health care — all closer to home.

at craig

For nearly 60 years, The Memorial Hospital and associated family of clinics has been part of our community here in Moffat County — providing compassionate, quality health care, right here at home.

The hospital has seen many changes in the last few years, thanks to the commitment of our community and the taxpayers.

Our new hospital was completed in November of 2009 and sits atop a hill overlooking town. Services at the hospital include: emergency department, inpatient care, diagnostic imaging, surgery,

Together, this is Our Memorial.

birthing services, laboratory, special care unit, cardiopulmonary and oncology.

For the most critical patients, our helipad and trauma team can assist if a quick transport to a neighboring hospital is necessary.

We have welcomed many new lives into our birthing center as well as helped many sick patients heal since we opened the new facility. We know that each person through our doors has touched the lives of our staff members, who strive for excellence every day.

The Medical Clinic, at our former downtown hospital location, is home to an energetic family practice, ob/gyn, internal medicine, general surgery, orthopedic, urology, cardiology and visiting specialty clinics. We've added several local and well-known physicians to our staff who maintain that special connection to members of our community.

Our Rehabilitation Center rounds out our services by providing orthopedic and manual physical therapy, sports physical therapy and rehabilitation, injury prevention, occupational therapy and sports massage.

We also have the Mountain Café, which is a great place to eat whether you're visiting a patient or not.

If you haven't had the opportunity to visit our hospital, we invite you to do so. We're happy to take you on a tour to experience our warm and welcoming environment.
